# Welcome

Edge-Hog Dive Gear is a value driven company that provides divers the highest quality Scuba equipment, at the best price possible. While we are a lean organization, we strive to offer our customers the service and support they deserve.

When you communicate with us you'll be speaking with those who help with product development and support your enjoyment in SCUBA diving.

We would like you to meet the team that makes EDGE-HOG operate on a daily basis.

**Chris Roberts**

Operations Manager

Chris operates out of our Macon, GA. Warehouse. He enjoys spear-fishing, deep water wrecks, and occasional fun dives with friends and family.

Chris began diving after he retired from the US Army and worked in Scuba retail before coming to EDGE-HOG in 2018.

As a SDI/TDI Course Director, Chris' favorite course to teach is SDI Divemaster and also as an avid Spear-fisher he enjoys teaching the Hunter Gather course.

Chris enjoys helping our partners be more profitable in their sales efforts. He looks forward to assisting you in finding ways EDGE-HOG Dive Gear can be a significant and rewarding part of your diving success.

**Bob Collins**

Director of Sales

Bob began diving in 1970 with the US Navy and retired in '94. He has dove from North to South poles and many places in between.

Bob works with the Navy and Army helping PTSD and other handicap service members through Scuba Therapy with the Purple Fins Project.

As a SDI Instructor Trainer and PADI IDC Staff Instructor he has certified all levels. His favorite course is teaching the IDC/IE for new instructors.

Bob understands the demands of shop ownership as well as being a successful long term independent instructor.

Contact Bob

We are eager to partner with dive professionals of all facets and we never ask you to make an order commitment that would negatively impact the success of your business. If you currently operate a successful dive operation you will find working with us a welcome change of pace. We strive to offer guidelines, pricing structures and general policies that are easy to understand. These help create the maximum value for your business without impeding success.

## Mask Fins Snorkel Packages

Build a Package from these components!

The MSF Package Builder offers exceptional savings for a new diver when buying their gear for Open Water certification. As a bonus to getting a great deal on essential gear, divers can also add optional "nice-to-have" items they will need at some point.

For example: A "New Diver" package would include a Mask, Snorkel and Fins. Optional items normally added to this package are; Boots, Regulator Mouthpiece and Mesh Gear Bag. "Nice-to-have" items would include; Dive light, Cutting Device, Slate and other dive convenience gear. Maybe even a wet suit and gloves.

### MSF Package Must Include

- Mask ( and Neoprene strap)
- Snorkel
- Fins

Optional items normally added; Boots, Mouthpiece and Mesh Gear Bag.

Dive Students appreciate having a guide to gear allowing them to make an informed decision based on what most divers buy for their Open Water certification courses.

## New 2019 EDGE-HOG Package Builder Guides

## Scuba Packages

Scuba Package Builders offer exceptional savings for; Beginner, Advanced and Technical Divers when buying a complete kit vs individual pieces.

**New Divers** desire a value priced kit. The EDGE Element BCD, Nano Regulator set and Nano Octo plus 2 Gauge Console. Up-grade to HOG's D1x and Rec-Tec Octo. Smart divers will add-on a Gauge Leash, Octo Holder and Mesh Dive Bag.

**Advanced or Pro Divers** choose HOG's "PRO" Hybrid BCD, D1x Regulator set and Rec-Tek Octo and Gauge Console. Add-on Octo Holders and Console Leashes. \*Up-grade able to the high performance HOG D3 / Zenith and Zenith Octo.

**Tech Divers** choose the very popular Total Buoyancy Control System BCD (below left) plus top rated D3 / Zenith with Zenith Octo and Single Gauge Console.

## Scuba Package must Include

- Regulator
- Octo
- Gauge
- BCD

Many other Add-ons may be included like  
Regulator and Dive Bags.

## Tech Regulator Packages

Tech Regulator Package Builders are designed to give the **Advanced or Tech Diver** proven performance and reliability at affordable pricing in the configuration they wish to dive. Be it single tank, doubles or side-mount diving with time tested designs with HOG's proprietary improvements makes them even better but with a price point that beats all others.

## Tech Package must Include

- Choice of 1st Stage
- Choice of 2nd Stage
- Reg Hoses ( Rubber or Flex)
- Choice of SPG
- HP Hoses ( Rubber or Flex)
- Choice of Swivel

Add-ons include needed Bolt Snaps, Clips and various Dive Bags.

# MASKS

## HOG Frameless Mask

**Black Only**

Part No: HOG-2044

- Fits most face sizes
- Large single front tempered glass lens with tear drop shape
- Flat black silicone skirt, no frame
- Uses narrow 5/8 inch wide silicone mask strap
- Protective plastic carrying case included
- Size: 20cm wide x 10cm tall x 7cm deep (Out of carrying case)
- Weight: 8.25oz / .234kg (Out of carrying case)

## HOG TECH Low Profile

**4 Color options**

Part No: HOG-0045

Fits small to average faces

- Perfect as a pocket backup mask
- Ultra low profile two lens tempered glass design.
- Black Rubberized Frame with colored trim accents
- Black silicone skirt
- Uses narrow 5/8 inch wide silicone mask strap
- Protective plastic carrying case included
- Corrective optical replacement lenses available
- Left and Right eye - Diopters from -1.5 to -6.0 in .5 increment<sup>2</sup>
- Weight 5.5oz

**Hog Mask Optical Lens**

Available in Left or Right -1.5 thru -6.0

Part No: HOG-0237

Makes a great backup mask, small compact and fits great in to a BCD pocket as a backup!

# SNORKELS

9 Color options  
Part No: EDG-0554

## Edge Costa Dry Snorkel

The EDGE Costa is designed to deliver maximum performance for snorkelers and scuba divers. While snorkeling you can dive down without water entering the snorkel top. A soft corrugated flex hose and comfortable ergonomically correct mouthpiece adjust for a perfect fit. Its high quality silicone has amazing shock and wear resistance. The Easy-Purge valve below the mouthpiece you can easily clear water from the snorkel tube.

### Snorkel Features:

- Ergonomic mouthpiece for all day comfort
- Exhaust valve for easy purging
- 100% dry top design keeps the water from entering the snorkel top when snorkeling or diving
- Flex hose designed to adjust to fit to the side of your head
- Adjustable snorkel keeper
- Mouthpiece and flex hose is made of high quality silicone that is super soft and comfortable
- Packed in poly zip lock bag

7 Color options  
Part No: EDG-0556

## Edge Aero Semi Dry

The Edge Aero Snorkel has a splash-proof dry guard that virtually eliminates water intake through the top of the tube. If any water enters the snorkel tube it can easily be blown out with the Easy Purge Systems One-Way Valve at the bottom of the snorkel tube.

- Quick release snorkel keeper included
- New streamlined semi-dry top
- Guards against water entering at the surface
- One-way purge valve for effortless clearing
- Large bore, tapered upper tube
- Flexible silicone lower tube, w/purge
- Replaceable Silicone mouthpiece/ Standard size
- Packed in poly zip lock bag

Blue-Yellow Only  
Part No: EDG-1804-U

## Edge Stealth 2 Snorkel

Black Only  
Part No: EDG-0366

Not everyone wants a bulky or complicated snorkel. For those wanting a snorkel for occasional use but that still breathes easy there is the EDGE Stealth 2.

- Traditional J tube airway shape and design
- Curved rigid airway contour follows users head
- Tech Black colored with black silicone mouthpiece assembly
- Packed in poly zip lock bag

## Edge Lanai Kids Dry Snorkel

Kids need not worry about breathing underwater. Kids snorkel uses the same dry sealing top technology as the Costa but with a smaller mouthpiece and airway better suited for a kid.

- Water sealing valve dry top assembly
- Colored rigid plastic airway curved
- Ultra small silicone mouthpiece
- Safety whistle integrated into mouthpiece • Colors available Blue (U) or Hi-Vis Yellow (Y)
- Packed in poly zip lock bag

## Edge Flex Open Heel Fins

**4 Color options**    **5 Sizes:** XS, SM, MD, LG and XL  
Part No: EDG-0551

The Edge Flex fins are lightweight, high performance dual-composite design for the ultimate in comfort and efficiency. They feature full length power rails and a central flex channel. The blade is a Flexible Thrust Channel that directs water off the blade tip for improved power. The foot pocket and unique, highly stretchable heel strap holds your foot comfortably and secure.

- Ultimate comfort, efficiency and performance
- Composite Material: Blend of Thermal Plastic Rubber (TPR) and Polypropylene
- Flexible Power Thrust Channels & Side Rails
- Blade Design Provides Uncompromising Power and Efficiency
- Blade Power Vents Reduce Stress while Accelerating Water Over the Blade
- Oversized Blade Design for Increased Thrust and Propulsion
- Foot Pocket Design Significantly Reduce Drag
- Easy On and Off
- Bungee style strap with Squeeze Style Quick-Release Buckles
- Large Pull-Tab Holes in Straps for Grip

Edge FLEX: Great Fit, Easy On & Off Bungee Strap Design and Good Looks - Super Value !

# BOOTS

## Edge Maui Snorkeling Fins

Open-heel design snorkeling fins with an easily adjustable heel strap. Made to wear bare or with a thin neoprene sock. The soft comfortable foot pocket is attached to a long composite blade and dual fin rails for enhanced snap and thrust.

- Designed for Snorkeling
- Channel Thrust Technology
- Side rails improve stability.
- Easy adjust quick-release buckles
- Available in 2 Adult Sizes and 2 colors

**Colors:** Blue or Black  
**Sizes** Small or Large  
Part No: EDG-0362

**Sizes:** 4-16

Part No: EDG-0148

## Edge Neo6 Tall Zipper Boot

A top choice among active divers, these tough zipper boots provide maximum thermal protection and foot support. The high-traction sole provides real stability, especially under the heavy load of scuba gear. The beefy zipper is backed up by a special Water Entry Barrier that prevents water exchange and helps keep feet toasty warm.

- 6mm Superior Stretch Nylon II Neoprene
- Durable traction sole
- Glued & sewn seams
- Puncture resistant sole
- Heavy duty zipper with "Slip Lock"
- Protective heel cap

## Edge Neo3 Tropic Low Boot

These comfortable low boots give warm water divers excellent protection and foot support. Great for other water sports like Stand-Up paddle boarding or just walking on the beach.

- 3mm Superior Stretch Nylon II Neoprene
- Durable traction sole
- Glued & sewn seams
- Puncture resistant sole
- Protective heel and toe cap

**Sizes:** 4-14

# REGULATORS

Available in Yoke or Din  
Part No: HOG-0536 (Yoke)  
Part No: HOG-0537 (DIN)

## Key Features

- High-Pressure Ports: 2 HP Ports
- Low-Pressure Ports: 5 LP Ports
- First Stage Type: Diaphragm, Balanced
- Environmental Kit
- Swivel 1st Stage
- Second Stage Type: Balanced, Adjustable
- Venturi: Yes
- Second Stage Swivel: Yes
- Silicone front cover

## HOG D1X / Classic 2.0 Regulator Set

The HOG D1X / Classic 2.0 Regulator Set is a Turreted, Balanced 1st stage with Environmental Kit and Pneumatically Balanced 2nd stage regulator designed for Advanced and Technical Divers! These divers demand performance, durability and dependability and HOG delivers at a shockingly low price. You could easily pay three times more and get a less capable regulator set.

### Classic 2.0 Second Stage

This HOG second stage gives you ergonomic one-handed access to both the inhalation effort knob and the dive/pre-dive venturi adjustment lever making perfect regulator tuning easy. The most important feature of this light weight second stage is it's amazing breathing performance! The metal gas tube and precision components provide heat retention and moisture from exhaled breath. This increases resistance to freezing in cold water and less dry mouth. The dual diver adjustable features allows for condition specific tuning during your dive

### Hog D1X Yoke 1st Stage (sealed)

The Seal helps protect from Cold, Dirty and Salt water Environments. The Swivel Turret allows for hose micro adjustments to increase diver comfort. Finished in Black Chrome plated brass.

## HOG D3 / Zenith Regulator Set

HOG better known as a brand for tec divers, offers a rugged no nonsense high performance regulator called the Zenith. The HOG D3/ Zenith configuration was tested by Scuba Lab and was given the Testers Choice Award in 2014. HOG is known as a brand for Technical and Advanced divers that offers them Rugged No-nonsense High performance regulators.

## Hog Zenith Second Stage

A pneumatically balanced adjustable 2nd that makes breathing underwater almost feel natural. The Zenith utilizes an Advanced Current-Flow Dispersing cover design and Silicon Soft-Touch purge assembly, Improved exhaust cover and braided hose.

These features make the Zenith reach new levels of performance and create a striking image. The dual diver-adjustable features allow condition specific tuning for each stage of your dive.

## Hog D3 1st Stage (sealed)

The Seal helps protect from Cold, Dirty and Salt water Environments. HOG's best Balanced Diaphragm regulator with 2 HP and 5 LP ports is offered in Yoke or DIN. It's Compact design and turret rotates 360 degrees routes hoses like a piston design unlike most Tech regulators. The D3 provides higher performance than the HOG D1X

## Edge Element Jacket Style BCD

The Edge Element BCD is designed to be the perfect BCD for new divers. The Element is an excellent BCD for exploring their new past time and gives them the benefits of personal BCD ownership without breaking the bank. Dive Centers will find the Element's rugged simplicity, user friendly features like Octo Pocket and extra D-rings make it the perfect rental or training BCD.

Available in XS-2XL

Part No: EDG-0590

- Easy to use Octo Pocket.
- 5 Strategically placed Stainless Steel D-Ring Attachment Points.
- Edge Mini Inflator with rubber LP inflation hose.
- Adjustable Waist Cumberbund.
- Two squeeze to release 10 lb. integrated weight pockets.
- Two easy access 5 lb. rear trim weight pockets with velcro and buckle closure.
- Padded backpack with carry handle.
- Tank Mounting Plate with tank strap cam buckle
- Constructed of 420 Nylon for durability and minimal weight.
- Lift Capacity of 27 to 45lbs depending on BC size.

## HOG "PRO" Hybrid BCD

The HOG PRO Hybrid BCD is designed to meet the demands for new, advanced or professional divers. Instructors and Dive Masters will find this unit a real pleasure with perfect positioning both underwater and at the surface with students or charter divers. The PRO incorporates the benefits of a Back-Inflate and Jacket style BCD in one unit. The Pro gives divers a very open and unrestricted fit similar to a BP/W. With features normally only found on much higher priced BCDs value is priority one. Great styling too !

## HOG Total Buoyancy Control System

### Custom options

Part No: HOG-TBCS-PKG

The new Total Buoyancy Control System is designed to be the perfect harness for divers of all types and diving styles. Customize this Rec-Tec system to fit your needs. The TBCS can be built or changed with your choice of diving in mind.

Choose a light weight Flex Soft Plate (sm or std) perfect for travel or the Alum. hard plate if you like. The SS plate is an upgrade choice. Then select either the Basic HOG Harness or the Deluxe Flex Harness (SIZES: XS-SM, MED-LRG and XXL-XXXL) with multiple adjustment and attachment points plus an assortment of custom or traditional harness hardware.

Next select your wing, either the 23lb or 32lb bungee wing.

Then select either a pair of Lrg 10lb or Sm 5lb quick drop weight pockets. You can also add a set of small pockets for trim to your system.

Then choose your tank straps; Plastic or SS cam buckels or the SS Quick Fits straps. You get two... Choose a 1.5 or 2" Crotch Strap. Make it fit you like a glove and offer you the utmost in performance and comfort.

# Tanks - Accessories

**Right Hand Valve**  
Part No: HOG-0360

**Left Hand Valve**  
Part No: HOG-0361

## HOG Pro Valves

HOG Pro scuba valves are satin finish chrome plated brass and are Nitrox Ready. Outlets are standard 200-Bar DIN. Inlets have standard 0.750-14 NPS (3/4 NPS) neck threads for use with all modern aluminum and steel SCUBA tanks and include a threaded 'dip tube' with hex opening for easy installation. Valves have a 5250 psi burst disk.

Right (0360) or Left (0361)

Right hand valves have the on/off wheel on the right side looking at the tank outlet or oring side. The Left side is the valve typically sent with new tanks.

Part No: HOG-TH-10-6  
Fits Kit 5-6 Inch Dia Tanks

**230 Bar Manifold**  
Part No: HOG-2064

## HOG Manifolds

**300 Bar Manifold**  
Part No: HOG-2065

HOG manifolds are double o-ring sealed on both sides of the cross-bar. Durable and safer compared to the old-style metal-to-metal seal manifolds. Our manifolds have a 180mm isolation crossbar that fits both 7.25-inch and 8-inch diameter tanks with a 3/4 inch neck. Manifolds are available in 200 or 300 bar. The 200 bar manifolds can be converted from yoke to DIN by removing the included insert with an allen wrench. This manifold is our most popular since yoke, 200 bar, or 300 bar regulators can be used with it. Shock absorbing ribbed rubber knobs are rugged, yet easy to manipulate. All manifolds come standard for 3500 psi service pressures. Valves come with Viton o-rings, oxygen compatible lubricants and are Nitrox ready.

- Available in 200 (Hog-2065) or 300 (Hog-2064) bar
- 0.750-14 NPS (3/4 NPS)
- 3500psi service pressure
- Nitrox ready
- 180mm isolation bar
- 4.9 lbs (2.3kg)

# ACCESSORIES

## Edge Moldable Mouthpiece

Part No: EDG-0614  
Black, Blue, Pink or Clear

Edge mouldable mouthpiece just like a football mouthpiece is mouldable to your personal teeth and jaw bite, resulting in unbeatable comfort while diving. Since this mouthpiece is fitted, it guarantees a solid grip in your mouth without stressing jaw muscles. The width of the teeth guards is also smaller than standard mouthpieces, which makes it easier to create a seal around the mouthpiece with your lips for relaxed diving.

## Clear Soft Bite Mouthpieces

Part No: EDG-0093  
Blue, Yellow, Black

## Black Soft Bite Mouthpieces
